Goals and Objectives 2024-2027
Seneca County Community Services Board

Margaret Morse, Director of Community Services

Goal 1

Goal 1: Title Increase Access to Psychiatric Services
Goal 1: Target Completion Date Mar 31, 2024
Goal 1: Description Currently, we have a waiting list for adult psychiatry services and a wait time of 2-3 months for child psychiatry. It is very challenging for rural counties, including Seneca County, to find psychiatric providers willing to work at our sites. We are often unable to pay rates equal to those in urban areas and compete with high paying hospital systems and larger community-based organizations for psychiatric prescriber time.

Our goal is to identify appropriate property or properties by January 1 of 2025.

Need description (Optional): We have had multiple case of individuals engaged with the OPWDD and OMH service systems requiring crisis respite and not having access to this level of care in our community or in the surrounding communities. This is particularly the case with youth and adults engaged in both the OMH and OPWDD systems (cross system engagement). Individuals not meeting inpatient level of care but not safe to return home without 24/7 supports have very limited options in our region. As a result, adults and youth wait in ERs or CPEPs for extended periods of time or alternatively, adults are discharged to homeless housing where they quickly decompensate and wind up back in the ER or CPEP sometimes only hours after discharge. It appears that OPWDD does not have this level of care and it should be developed.
