Mental Hygiene Goals and Objectives Form

Delaware County Dept. of Mental Health (70050)

Certified: Cynthia Heaney (8/7/20)

Mental Hygiene Law, § 41.16 "Local planning; state and local responsibilities" states that "each local governmental unit shall: establish long range goals and objectives consistent with statewide goals and objectives." The Goals and Objectives Form allows LGUs to state their long-term goals and shorter-term objectives based on the local needs identified through the planning process and with respect to the State goals and objectives of each Mental Hygiene agency.

The information input in the 2020 Goals and Objectives Form is brought forward into the 2021 Form. LGUs can use the 2020 information as starting point for the 2021 Plan but should ensure that each section contains relevant, up-to-date responses.

Please indicate below if the overall needs of each disability population got better or worse or stayed about the same over the past year. Completion of these questions is required for submission of the form.

New To assist LGUs in the assessment of local substance use disorder (SUD) needs, OASAS Planning has developed a county-level, core-dataset of SUD public health data indicators. These reports are based on the recommendations of the Council of State and Territorial Epidemiologists and the regularly updated county-level datasets available in New York State. Each indicator compares county-level population-based rates to statewide rates. Reports for all counties are available in the County Planning System Under Resources -> OASAS Data Resources -> Substance Use Disorder Key Indicators

1. Overall Needs Assessment by Population (Required)

Please explain why or how the overall needs have changed and the results from those changes.

The question below asks for an overall assessment of unmet needs; however certain individual unmet needs may diverge from overall needs. Please use the text boxes below to describe which (if any) specific needs have improved, worsened, or stayed the same.

a) Indicate how the level of unmet mental health service needs , overall, has changed over the past year:	0	Improved	0
Stayed the Same Worsened			

Please describe any unmet mental health service needs that have improved:

- COVID-19 has moved along implementation of telehealth capacity for outpatient mental health clinic. All clinicians have capacity to provide telehealth.
- · Access to psychiatric prescribers has increased in primary sites throughout the county.

Please describe any unmet mental health service needs that have stayed the same:

- Mental health needs in our rural communities continue to outpace resources. Delaware County has one article 31 outpatient mental health clinic to serve a county the geographic size of Rhode Island with 1442 miles of county roads.
- There is a limited availability of local inpatient psychiatric beds for adolescents. Many adolescents wait in ER beds for days only to be sent home due to no bed space in NYS or inability of parent to supervise. There are limited community resources to stabilize and enable individuals to function adequately in the community. The decrease in psychiatric hospital beds has placed additional burden on core outpatient mental health services without any increase in workforce.

Please describe any unmet mental health service needs that have worsened:

- Full impacts due to COVID-19 are as yet unknown however Mobile Crisis reports 20% increase in crisis calls during pandemic primarily related to anxiety and depression.
- According to Census data Delaware County's population continues to decrease. 24% of the population is over 65 years old. Workforce availability has worsened from last year. There are more vacancies across the mental health service providers for extended periods of time.

b) Indicate how the level of unmet substance use disorder (SUD) needs , overall, has changed over the past year:	0
Improved Stayed the Same Worsened	

Please describe any unmet SUD service needs that have improved:

- Recovery and Peer supports have increased in the county with resources from County, OASAS and DOH. Friends of Recovery of Delaware and Otsego Co is poised to have a more active and engaged presence in the county with the renovation of a new facility. Since transportation is a barrier to engagement, a recovery van will be able to travel to communities to meet with individuals and also bring to recovery center for programming.
- The Faith based Church Councils are very supportive of recovery initiatives and have been a strong recovery ally.
- Heroin admissions in outpatient clinic have decreased the 1st six months of 2020 from 19.6% last year to 7.3% in 2020.
- OASAS providers have received telepractice designation to continue virtual access beyond COVID state of emergency.

Please describe any unmet **SUD** service needs that have **stayed the same**:

Peers report ongoing community stigma to those with SUD disorders.

Please describe any unmet **SUD** service needs that have **worsened**:

- We continue to see an increase in methamphetamine and other stimulant use. According to OASAS LGU statistics for primary substance admissions, Meth admissions have increased from 1% to 14.6 % in first 6 months of 2020 as compared to same timeframe of 2019.
- There is anecdotal information that overdoses have increased because of COVID shelter in place, hospitals have not been keeping up with reporting data due to pandemic so it is difficult to assess.

c)	Indicate how	v the level	of unmet	needs of the	developmentally	disabled	population,	overall, has	s changed i	n the past	year:
0	Improved (Stayed	I the Same	e O Worser	ned				-		

Please describe any unmet developmentally disability service needs that have improved:

· Unable to assess at this time due to COVID

Please describe any unmet developmentally disability service needs that have stayed the same:

- The NY Start program has yet to be implemented in the Southern Tier. This program is designed to address crisis services for the DD population. The Southern Tier is the only region that does not have a program that offers crisis prevention and response services to individuals with IDD/DD and complex behavioral health needs as well as their families.
- Care Coordination needs have stayed the same for both adults and children with developmental disabiliites as well as transition aged youth.

Please describe any unmet developmentally disability service needs that have worsened:

Unable to assess at this time due to COVID.

The second section of the form includes; goals based on local need; goals based on state initiatives and goals based in other areas. The form allows counties to identify forward looking, change-oriented goals that respond to and are based on local needs and are consistent with the goals of the state mental hygiene agencies. County needs and goals also inform the statewide comprehensive planning efforts of the three state agencies and help to shape policy, programming, and funding decisions. For county needs assessments, goals and objectives to be most effective, they need to be clear, focused and achievable. The following instructions promote a convention for developing and writing effective goal statements and actionable objectives based on needs, state or regional initiatives or other relevant areas.

2. Goals Based On Local Needs

Please select any of the categories below for which there is a **high level of unmet need** for LGU and the individuals it serves. (Some needs listed are specific to one or two agencies; and therefore only those agencies can be chosen). When considering the level of need, compare each issue category against all others rather than looking at each issue category in isolation.

- For each need identified you will have the opportunity to outline related goals and objectives, or to discuss the need more generally if there are no related goals or objectives.
- You will be limited to one goal for each need category but will have the option for multiple objectives. For
 those categories that apply to multiple disability areas/state agencies, please indicate, in the objective description,
 each service population/agency for which this unmet need applies. (At least one need category must be selected).

Iss	ue Category	Applicable State Agenc(ies)

(After a need issue category is selected, related follow-up questions will display below the table)

2d. Workforce Recruitment and Retention (service system) - Background Information

The Background Information box is a free-text box for LGUs to provide any additional information or more details related to the need and the Goal, such as:

- Data sources used to identify need (e.g. hospital admission data)
- · Assessment activities used to indicate need or formulate goal (e.g. community forum)
- Narrative describing importance of goal

This form will allow attachments, so in the Background Information box you could reference an attached document for more information.

Delaware County is one of 5 upstate rural counties with the largest population loss since the last decennial census. The county population has decreased over 8% since 2010. The base population has decreased from 47,980 to 44,135. **see attachment**: 2020 Empire Center census data

Do you have a Goal related to addressing this need? Yes No	
Goal Statement- Is this Goal a priority goal (Maximum 5 Objectives per goal)? Yes	No

The Goal Statement should be a specific, clear, and succinct statement of a desired outcome. It should be focused on a change that is tangible, achievable and within the control of the LGU. Avoid vague statements that focus on "maintaining" or "continuing" activity that simply maintains the status quo.

Delaware County will strive to develop and retain a well trained health professional workforce that adequately addresses the needs of the community.

Objective Statement

Objective Statements should describe a shorter-term action the LGU will take to achieve the longer-term goal. Each goal should have at least one objective. You may have multiple objectives for each goal. The objective should identify the approach to be taken to help achieve the desired outcome. It answers the question, "How will the goal be achieved?"

Add an Objective (Maximum 5 Objectives per goal) | Remove Objective

Objective 1: Regional and local initiatives for workforce solutions will continue to be explored.

Applicable State Agency: (check all that apply): ☑ OASAS ☑ OMH ☑ OPWDD

Objective 2: Community Stakeholders will explore innovative ideas to incentivize recruitment and retention of workers Applicable State Agency: (check all that apply): OASAS OMH OPWDD

Change Over Past 12 Months (Optional)

This optional, free-text box allows LGUs to describe any change in the need driving the goal or any progress made towards the goal in the last year. Where possible, include specific measurable accomplishments and milestones achieved. You may also want to identify barriers to achieving stated goals and objectives and describe the rationale for any changes made to the goal statement or associated strategies.

- Telehealth has been implemented at local hospital/primary care that has increased some access for behavioral health needs.
- There has been some limited success in hiring licensed social workers for county outpatient clinic.

2f. Prevention - Background Information

The Background Information box is a free-text box for LGUs to provide any additional information or more details related to the need and the Goal, such as:

- Data sources used to identify need (e.g. hospital admission data)
- · Assessment activities used to indicate need or formulate goal (e.g. community forum)
- · Narrative describing importance of goal

This form will allow attachments, so in the Background Information box you could reference an attached document for more information.

Delaware County Health Ranking for 2020 has decreased from 2019. In 2019 Delaware ranked **25** out of 62. In 2020, Delaware is ranked 33 out of 62. There are certain health factors that remain of concern. Adult Obesity remains at 30% Adult smoking is 19%. Social /economic factors rank much lower in the county and are highlighted by the number of Children in poverty. Children in poverty is **30%** see **attached**: 2020 county rankings

Delaware County ranks third for highest suicide rates in New York State. It is higher than the NYS average. Veterans and dairy farmers are among the demographics with particular concern for men age 39-54. Firearm suicide rate in Delaware County is the highest in the State. (average 12.92 deaths per 100,000) as well as the highest 5 year average death rate by firearm. see attached.: CDC firearms death

Do you have a Goal related to addressing this need?

Yes
No

The Goal Statement should be a specific, clear, and succinct statement of a desired outcome. It should be focused on a change that is tangible, achievable and within the control of the LGU. Avoid vague statements that focus on "maintaining" or "continuing" activity that simply maintains the status quo.

Delaware County and regional partners will support strong prevention and engagement networks which are essential for improving population healith and promote well being.

Objective Statement

Objective Statements should describe a shorter-term action the LGU will take to achieve the longer-term goal. Each goal should have at least one objective. You may have multiple objectives for each goal. The objective should identify the approach to be taken to help achieve the desired outcome. It answers the guestion, "How will the goal be achieved?"

Add an Objective (Maximum 5 Objectives per goal) | Remove Objective

Objective 1: The suicide prevention network will strengthen and develop interventions and initiatives that are data driven and involve multiple community stakeholders

Applicable State Agency: (check all that apply): ☑ OASAS ☑ OMH ☑ OPWDD

Objective 2: Del. Co. Community Services will actively support the development and sustainability of community coalitions Applicable State Agency: (check all that apply): OASAS OMH OPWDD

Objective 3: Community Stakeholders will actively participate in planning and implementing Population Health initiatives in County

Applicable State Agency: (check all that apply): ☑ OASAS ☑ OMH ☑ OPWDD

Objective 4: Del. Co Community Services will partner with public health around NYS prevention agenda 2019-2024 to promote well being and prevent mental and substance use disorders.

Applicable State Agency: (check all that apply): ✓ OASAS ✓ OMH ✓ OPWDD

Change Over Past 12 Months (Optional)

This optional, free-text box allows LGUs to describe any change in the need driving the goal or any progress made towards the goal in the last year. Where possible, include specific measurable accomplishments and milestones achieved. You may also want to identify barriers to achieving stated goals and objectives and describe the rationale for any changes made to the goal statement or associated strategies.

- The suicide prevention network remains an active community advocacy group. Current initiative is to assemble informational packets to distribute to local sporting goods stores that sell firearms.
- Delaware County has two active community coalitions (Sidney and Margaretville) that support educational initiatives in the school and promotion of wellness in their communities.
- The local substance abuse council has received additional funding to expand prevention programming into more schools.

2h. Recovery and Support Services - Background Information

The Background Information box is a free-text box for LGUs to provide any additional information or more details related to the need and the Goal, such as:

- Data sources used to identify need (e.g. hospital admission data)
- Assessment activities used to indicate need or formulate goal (e.g. community forum)
- Narrative describing importance of goal

This form will allow attachments, so in the Background Information box you could reference an attached document for more information.

Delaware County Recovery Center is operated by Friends of Recovery of Delaware and Otsego Counties. OASAS has recently provided funding \$350,000 to significantly increase the access and footprint in the county for peers support, advocacy and education.

There are limited Mental Health peer supports available in the county. There are several peer led programs through Rehabilitation Support Services.

Do you have a Goal related to addressing this need?

Yes
No

The Goal Statement should be a specific, clear, and succinct statement of a desired outcome. It should be focused on a change that is tangible, achievable and within the control of the LGU. Avoid vague statements that focus on "maintaining" or "continuing" activity that simply maintains the status quo.

Addiction Recovery and Mental Health Support Services are accessible and available to all Delaware County residents.

Objective Statement

Objective Statements should describe a shorter-term action the LGU will take to achieve the longer-term goal. Each goal should have at least one objective. You may have multiple objectives for each goal. The objective should identify the approach to be taken to help achieve the desired outcome. It answers the question, "How will the goal be achieved?"

Add an Objective (Maximum 5 Objectives per goal) | Remove Objective

Objective 1: Del.Co. Community Services will support the Turning Point Recovery Center in Delhi as it expands programming to assist the recovery community

Applicable State Agency: (check all that apply): ☑ OASAS ☐ OMH ☐ OPWDD
Objective 2: Opportunities to expand peer services in communities and in the local correctional facility will be explored Applicable State Agency: (check all that apply): OASAS OMH OPWDD
Objective 3: Evidenced based initiatives to provide support to peers in the community will be explored and supported. Applicable State Agency: (check all that apply): OASAS OMH OPWDD
Change Over Past 12 Months (Optional)
This optional, free-text box allows LGUs to describe any change in the need driving the goal or any progress made towards the goal in the last year. Where possible, include specific measurable accomplishments and milestones achieved. You may also want to identify barriers to achieving stated goals and objectives and describe the rationale for any changes made to the goal statement or associated strategies.
 OASAS has recently provided funding \$350,000 to significantly increase the access and footprint in the county for peers support, advocacy and education. Recovery Center Peer specialist has increased hours of operation to full time. Peer Recovery support trainings are being made available throughout the county.
2i. Reducing Stigma - Background Information
The Background Information box is a free-text box for LGUs to provide any additional information or more details related to the need and the Goal, such as:
 Data sources used to identify need (e.g. hospital admission data) Assessment activities used to indicate need or formulate goal (e.g. community forum) Narrative describing importance of goal
This form will allow attachments, so in the Background Information box you could reference an attached document for more information.
Stigma of mental health illness or substance use disorder is a social justice concern. Stigmatized Individuals suffer from societal exclusion and isolation which can exacerbate disabilities. Delaware County Community Services has had significant negative experiences revolving aroung trying to site a new behavioral health facility. see attached : Mental Health facility backlash
Do you have a Goal related to addressing this need? Yes No
Goal Statement- Is this Goal a priority goal (Maximum 5 Objectives per goal)? O Yes O No
The Goal Statement should be a specific, clear, and succinct statement of a desired outcome. It should be focused on a change that is tangible, achievable and within the control of the LGU. Avoid vague statements that focus on "maintaining" or "continuing" activity that simply maintains the status quo.
Delaware County Stakeholders will work toward achieving a stigma free environment for individuals suffering from mental illness and substance use disorders
Objective Statement
Objective Statements should describe a shorter-term action the LGU will take to achieve the longer-term goal. Each goal should have at least one objective. You may have multiple objectives for each goal. The objective should identify the approach to be taken to help achieve the desired outcome. It answers the question, "How will the goal be achieved?"
Add an Objective (Maximum 5 Objectives per goal) Remove Objective
Objective 1: Del. Co Community services and stakeholders will support social media initiatives to address stigma and person
centered language. Applicable State Agency: (check all that apply): ☑ OASAS ☑ OMH ☐ OPWDD
Objective 2: Stakeholders will develop and support early recognition and screening initiatitves through community outreach Applicable State Agency: (check all that apply): OASAS OMH OPWDD
Objective 2: Del Co Community con/iggs will support and initiate educational apportunities in the communities such as MHEA

Objective 3: Del Co Community services will support and initiate educational opportunities in the communities such as MHFA / YMHFA as well as public speakers and informative documentaries

Applicable State Agency: (check all that apply): ☑ OASAS ☑ OMH ☐ OPWDD
Change Over Past 12 Months (Optional)
This optional, free-text box allows LGUs to describe any change in the need driving the goal or any progress made towards the goal in the last year. Where possible, include specific measurable accomplishments and milestones achieved. You may also want to identify barriers to achieving stated goals and objectives and describe the rationale for any changes made to the goal statement or associated strategies.
 Delaware County Department of Mental Health hosts a facebook page that provides informational and educational materials / videos to address stigma in the communities we live in. This collaboration involves youth as well as individuals with live experience.
2ac. Adverse Childhood Experiences (ACEs) - Background Information
The Background Information box is a free-text box for LGUs to provide any additional information or more details related to the need and the Goal, such as:
 Data sources used to identify need (e.g. hospital admission data) Assessment activities used to indicate need or formulate goal (e.g. community forum) Narrative describing importance of goal
This form will allow attachments, so in the Background Information box you could reference an attached document for more information.
2019 New York State county social and economic rankings indicate Delaware County is 54 out of 62 counties. The county has a higher unemployment rate 5.6 % compared to 4.7% for NYS. The county has 30% of children living in poverty as compared to 20% average for NYS. Of particular concern is the rate of child abuse/maltreatment in the county. Reports indicate that 41.2% per 1000 children had indicated reports in 2018. This is significantly higher than NYS current rate of 17.1% see attachments: KWIC county report, county rankings
Do you have a Goal related to addressing this need? Yes No
Goal Statement- Is this Goal a priority goal (Maximum 5 Objectives per goal)?
The Goal Statement should be a specific, clear, and succinct statement of a desired outcome. It should be focused on a change that is tangible, achievable and within the control of the LGU. Avoid vague statements that focus on "maintaining" or "continuing" activity that simply maintains the status quo.
Delaware County Community Services and partners will work toward building resilent and trauma informed communities to improve well being.

RESEARCH & DATA

March 2020

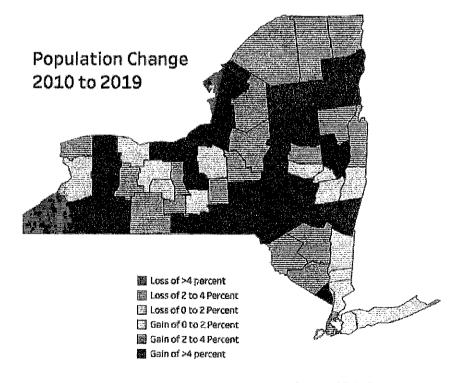

NYC, downstate suburbs account for most of NY's 2018-19 population dip

For a second consecutive year, New York's population loss was mainly concentrated downstate, according to the latest Census Bureau estimates.

During the 12-month period ending last July 1, the 50 counties of upstate New York lost 20,846 residents, a decrease of 0.33 percent, while the down-state region lost a combined total of 55,944 people, or 0.42 percent. Virtually all of the change (53,264) occurred in New York City, accounting for the bulk of the state's net decrease of 76,790 in 2018-19. It was the third straight year of decline in the city's estimated population after a long period of growth.

The latest downstate population estimate of 13,241,115 reflects an increase of 202,289 (1.6 percent) since the 2010 census, while the combined population upstate stood at 6,212,446, a decrease of 126,830 people (-2.0 percent) since 2010. Since the last decennial census in 2010, the total state population has grown by 75,459, or just 0.4 percent.

As shown below, 45 of 50 upstate counties have lost population since the last decennial census; in all but six of the losing counties, the decline has exceeded 2 percent of the 2010 base population. Dutchess, Putnam and Suffolk remain the only downstate counties to have lost population since the census

Highlights of 2019 Census Bureau estimates for New York Counties (See Tables 1 and 2 for more details)

- In the last two years, the Census Bureau has begun making large downward adjustments to its estimates of international immigration, which has long been concentrated in the New York City metropolitan area. As a result, the estimated net change in the downstate population since 2016, in particular, has been reduced significantly. This also has reduced estimated populations below previous counts for some upstate urban counties.
- Ontario and Saratoga remain the only New York counties to have experienced
 positive domestic migration since 2010, meaning they attracted more new residents from the rest of the nation, including other New York counties, than they
 lost (see map below).
- New York City's total population remains 161,684 higher than measured by the 2010 census, with the county-boroughs of Kings (Brooklyn), New York (Manhattan), the Bronx and Queens, in that order, having experienced the state's largest overall population increases since 2010, driven mainly by large natural increases. Elsewhere downstate, the largest percentage increases in estimated population have occurred in Rockland and Orange counties, while Saratoga has had the fastest growing population of any upstate county.
- In percentage terms, the biggest population losses since the last decennial census have been in upstate rural areas: Hamilton Delaware, Chenango, Essex and Chemung counties.

¹ Indicators are not mutually exclusive. Decedents and patients may have multiple substances in their system. Thus, overdoses involving heroin and overdoses involving opioid pain relievers will not add up to the overdoses involving all opioids.

s: Data for indicators related to hospitalizations and emergency departments are suppressed for confidentiality purposes if there are fewer than 6 discharges.

Delaware County: Unique clients admitted to OASAS-certified chemical dependence treatment programs 12 (Preliminary data as of October, 2018 - subject to change)

And the second s		2016			2017					
Indicator	Jul-Sep	Oct-Dec	Total	Jan-Mar					2018

1 County numbers displayed in the table represent only naloxone administration events reported electronically; therefore, actual numbers of events may be higher.

EMS reporting may have been affected by a change in documentation systems used by EMS agency/ies serving the area. Counts may include additional cases compared to previous reports, if applicable. In addition, some counts may have decreased compared to previous reports due to an improvement made in the deduplication of records. Please see the Introduction and Method sections for more detail about these potential changes.

Numbers displayed in the table represent only naloxone administration reports submitted by law enforcement or by registered COOP programs to the NYSDOH

Q1

Contact Information

Name Cynthia Heaney

Title Director of Community Services

Email cindy.heaney@co.delaware.ny.us

Q2 Delaware County Dept. of Mental Health

LGU:

Q3

a. Indicate how your local mental hygiene service system (i.e., mental health, substance use disorder and problem gambling, and developmental disability populations), overall, has been affected by the COVID-19 pandemic: Please specifically note, Any cross-system issues that affect more than one population; Any specific racial/ethnic groups or populations that have been disproportionately impacted by COVID-19; and Any differences between adult services and children's services.

The entire mental hygiene system has been greatly affected by the COVID-19 pandemic. Service availability and supports changed in an instant. Providers scrambled to get technology to go virtual and figure out how to keep everyone as safe as possible in chaos. All protocols and procedures changed weekly during March, April and May depending on whether it was an inpatient, outpatient or residential program. Lack of Broad band access heightened the disparities in our rural county. Children fell off the radar in mental health system for a while as they weren't in school and many issues went underground. Residential programs esp. I/DD population have suffered greatly due to extremely strict protocols with no family visits for months.

Q4

b. Indicate how your mental health service needs, overall, have been affected by the COVID-19 pandemic:Please specifically note, Any specific racial/ethnic groups or populations that have been disproportionately impacted by COVID-19; and Any differences between adult services and children's services.

SPMI population decompensated in larger numbers during COVID-19. Social supports shut down. Increased isolation exacerbated illness. Mobile crisis was phone only , replacing face-to face .

Q5

c. Indicate how your substance use disorder (SUD) and problem gambling needs, overall, have been affected by the COVID-19 pandemic:Please specifically note, Any specific racial/ethnic groups or populations that have been disproportionately impacted by COVID-19; and Any differences between adult services and children's services.

Demand for SUD services plummeted. Reduced supervision of parole and probation as well as court closures lessened accountability for this population.

Q6

d. Indicate how the needs of the developmentally disabled population, overall, have been affected by the COVID-19 pandemic:Please specifically note, Any specific racial/ethnic groups or populations that have been disproportionately impacted by COVID-19; and Any differences between adult services and children's services.

This population needs social interaction and family support which all but disappeared until recently. In our rural county transportation stopped which has increased isolation and stress.

Q7

a. Mental Health providers

The challenge was digesting the volumes of material that was put out by OMH, DOH, CDC as well as local public health and county government. It was overwhelming

Q8

b. SUD and problem gambling service providers:

Similar issue with OASAS. Too much information that changed often and contradicted in early days.

Q9

c. Developmental disability service providers:

The issue wasn't training or educational material but rather how to implement and make the best supports that could be offered.

Page 2

Q10

a. Since March 1, 2020, how would you describe DEMAND for mental health services in each of the following program categories?

INPATIENT (State PC, Article 28/31 Inpatient, Residential

Treatment Facilities)

No Change

OUTPATIENT (Clinic, ACT, Day Treatment, PROS, Continuing

Decreased

Day Treatment, Partial Hospitalization)

RESIDENTIAL (Support, Treatment, Unlicensed Housing)

N/A

EMERGENCY (Comprehensive Psychiatric Emergency

Increased

Programs, Crisis Programs)

SUPPORT (Care Coordination, Education, Forensic, General,

Increased

Self-Help, Vocational)

Q11

If you would like to add any detail about your responses above, please do so in the space below:

The number of crisis decreased however the crisis that did occur were of higher risk and complexity.

Q12

Since March 1, 2020, how would you describe ACCESS to mental health services in each of the following program categories?

INPATIENT (State PC, Article 28/31 Inpatient, Residential

No Change

Treatment Facilities)

OUTPATIENT (Clinic, ACT, Day Treatment, PROS, Continuing

Day Treatment, Partial Hospitalization)

Decreased

RESIDENTIAL (Support, Treatment, Unlicensed Housing)

N/A

EMERGENCY (Comprehensive Psychiatric Emergency

No Change

Programs, Crisis Programs)

SUPPORT (Care Coordination, Education, Forensic, General,

Self-Help, Vocational)

Increased

Q13

If you would like to add any detail about your responses above, please do so in the space below:

It took a good month to develop virtual remote counseling for outpatient.

Q14

a. Since March 1, 2020, what number of mental health program sites in your county closed or limited operations due to COVID-19, apart from transition to telehealth?

0

Q15

Respondent skipped this question

If you would like to add any detail about your responses above, please do so in the space below:

Q16

b. What number of mental health program sites in your county remain closed or are offering limited services now, apart from transition to telehealth?

0

Q17

Respondent skipped this question

If you would like to add any detail about your responses above, please do so in the space below:

Q18

Yes

c. If your county operates services, did you maintain any level of in-person mental health treatment

Q19

Respondent skipped this question

If you would like to add any detail about your responses above, please do so in the space below:

Q20

No

d. As a result of COVID-19, are any mental health programs in your county closing operations permanently? If yes, list program name(s) and type(s).

Q21

Respondent skipped this question

If you would like to add any detail about your responses above, please do so in the space below:

Q22

No

e. Did any mental health programs in your county close due to workforce issues (e.g. staff infections, recruitment/retention issues)?

Q23	Respondent skipped this question
If you would like to add any detail about your responses above, please do so in the space below:	
Q24	No
a. Apart from telehealth, during COVID-19, did your county or mental health providers within your county develop any innovative services or methods of program delivery that may be continued post-COVID? If yes, please describe.	
Q25	No
b. During COVID-19, did any mental health providers within your county form any partnerships with other providers that may be continued post-COVID? If yes, please describe.	
Q26	
a. During COVID-19, how many mental health providers w operations plans?	ithin your county implemented existing continuity of
2	
Q27	Respondent skipped this question
If you would like to add any detail about your responses above, please do so in the space below:	
Q28	Respondent skipped this question
b. During COVID-19, how many mental health providers within your county did not implement existing continuity of operations plans?	
Q29	Respondent skipped this question
If you would like to add any detail about your responses above, please do so in the space below:	
Q30	LGU
c. During COVID-19, did your county LGU or Office of Emergency Management (OEM) assist any mental health providers in the development or revision of continuity of operations plans?	

Q31

Respondent skipped this question

If you would like to add any detail about your responses above, please do so in the space below:

Q32

During COVID-19, what OMH guidance documents were beneficial to your disaster management process?

Program-level Guidance,

Telemental Health Guidance,

Infection Control Guidance,

Fiscal and Contract Guidance,

FAQs

Page 3

Q33

1. Please indicate any needs for or issues with SUD and problem gambling prevention, treatment, and recovery providers acquiring Personal Protective Equipment (PPE), face masks, cleaning or disinfectant supplies, or similar materials related to the COVID-19 pandemic:

There were no problems acquiring PPE or toher materials. Stores were in short supply so a combination OEM supplies and retail were used.

Q34

a. How has COVID-19 affected the delivery of and demand for SUD and problem gambling prevention services in your county?

OASAS prevention is mostly school based. All schools closed in March and it took a while to gain virtual access. Teen Intervene was conducted online. Prevention resources for schools were created online. Online challenges were created for Middle and High School students and send to school guidance counselors. There was contact with TGFD and TGFV programs to get guidance for online programming.

Q35

b. How has COVID-19 affected the delivery of and demand for SUD and problem gambling recovery services in your county?

Peer services and recovery center closed down. There was limited access to online 12 step programs initially. Online peer supports were developed. Broadband access for this population remains limited at best.

Q36

c. How has COVID-19 affected the delivery of and demand for problem gambling treatment services in your county?

The seems to be a greater need for services but reduced demand during COVID-19. Drug Court shut down as well as town and county court which is major referral source for SUD treatment. Relapses increased due to loss of work, financial stress, relationship problems including domestic violence increases, and bereavement.

Q37

d. Since March 1, 2020, how would you describe DEMAND for SUD Treatment services in each of the following program categories?

INPATIENT Decreased

OUTPATIENT Decreased

OTP N/A

RESIDENTIAL Decreased
CRISIS No Change

Q38

If you would like to add any detail about your responses above, please do so in the space below:

law enforcement reports increase of crisis compliants of overdoses, domestic violence, custody disputes and criminal contempt. This is not reflected to increased demand for SUD treatment.

Q39

e. Since March 1, 2020, how would you describe ACCESS to SUD Treatment services in each of the following program categories?

INPATIENT Decreased
OUTPATIENT Increased
OTP Increased
RESIDENTIAL Decreased
CRISIS No Change

Q40

If you would like to add any detail about your responses above, please do so in the space below:

Inpatient and residential access decreased due to reduced available bed space and social distancing protocols. Telehealth practices opened up accessibility for outpatient .

Q41 No

a. Apart from telehealth, during COVID-19, did your county or SUD and problem gambling service providers within your county develop any innovative services or methods of program delivery that may be continued post-COVID? If yes, please describe.

Q42 No

b. During COVID-19, did SUD and problem gambling service providers within your county form any partnerships with other providers that may be continued post-COVID? If yes, please describe.

Page 4

Q43

1. Has your county conducted analysis on the impact of COVID related to IDD services/OPWDD service system? If yes, please explain.

Yes (please explain):

Received input from boots on ground of largest I/DD provider in the county.

Q44

2. What are the greatest challenges your county will be facing over the next 12 months related to IDD services?

The capacity for funding and flexibility to regulatory requirements.

Q45

3. Is there data that would be helpful for OPWDD to provide to better information the local planning process? Please list by order of priority/importance.

Very little data is available in the county. ARC NY has collected data regarding infection and death rates for this population but luckily there have been no COVID + in this population in county that we are aware of.

Page 5

Q46

Please use the optional space below to describe anything else related to the effects of COVID-19 on Mental Hygiene service delivery that you were not able to address in the previous questions:

I/DD provider reports that some of the population felt there were a set of rules for New Yorkers to follow and a stricter set of rules for New Yorkers with disabilities. Since COVID-19 will be a long term concern, Residential programs are fearful of a burn through PPE if there is a COVID outbreatk. Ongoing readily accessible PPE is a concern for the future.
