The app then provides you with four categories of tasks to help you surf the urge. 'Distract' helps in learning self-control; 'Comfort' helps you care rather than harm; 'Express yourself' gets those feelings out in a different way and 'Release' provides safe alternatives to self-injury. There is also a 'Breathe' category to help calm and get back in control. You can do the activities for either blocks of five minutes or fifteen minutes with a countdown for each minute. You will be able to track your progress and notice change.

Self-Help for Anxiety Management (SAM) – SAM is a friendly app that offers a range of self-help methods for people who are serious about learning to manage their anxiety.
