

Waivers

<http://www.medicaid.gov/Medicaid-CHIP-Program-Information/By-Topics/Waivers/Waivers.html>

Waivers are vehicles states can use to test new or existing ways to deliver and pay for health care services in Medicaid and the Children's Health Insurance Program (CHIP). There are four primary types of waivers and demonstration projects:

[Section 1115 Research & Demonstration Projects](#): States can apply for program flexibility to test new or existing approaches to financing and delivering Medicaid and CHIP.

[Section 1915\(b\) Managed Care Waivers](#): States can apply for waivers to provide services through managed care delivery systems or otherwise limit people's choice of providers.

[Section 1915\(c\) Home and Community-Based Services Waivers](#): States can apply for waivers to provide long-term care services in home and community settings rather than institutional settings.

[Concurrent Section 1915\(b\) and 1915\(c\) Waivers](#): States can apply to simultaneously implement two types of waivers to provide a continuum of services to the elderly and people with disabilities, as long as all Federal requirements for both programs are met.
