Goals and Objectives 2024-2027 Putnam County Mental Health Services

Sara Servadio, Deputy Commissioner
(Sara.Servadio@putnamcountyny.gov)

Goal 1

Goal 1: Title Reduce behavioral health crises in the community.

Goal 1: Target Completion Date Jun 01, 2026

Goal 1: Description Our goal is to create a comprehensive response system that is trauma informed, meets the appropriate level of need, and is easy to navigate and access. While there has been some improvement with the historical challenge of navigating various silo funding sources from the NYS "O" agencies, we continue to be challenged in creating a single, comprehensive and responsive behavioral health crisis system. The number of persons appearing with behavioral health crises in the community has increased at a precipitous rate. What was once a rarity is a daily occurrence. Most of these events end up with law enforcement intervention.

Goal 1: OASAS? Yes Goal 1: OMH? Yes Goal 1: OPWDD? Yes

Goal 1: Need Addressed 1 Crisis Services

Goal 1: Need Addressed 2

Goal 1: Need Addressed 3

Goal 1, Objective 1: Title Establish a Supportive Crisis Stabilization Center.

Goal 1, Objective 1, Target Completion Date Dec 31, 2023

Goal 1, Objective 1, Description Putnam County has committed \$2.5 million dollars to help establish a supportive crisis stabilization center. The stabilization center will be a resource to residents interfacing with law enforcement due to their illness/symptoms, for those seeking to begin recovery from substance use, and will serve as a diversion to the emergency department for a behavioral health crisis.

Goal 1, Objective 2: Title Establish a co-response team.

Goal 1, Objective 2, Target Completion Date Dec 31, 2023

Goal 1, Objective 2, Description In 2022, about 1/3 of the individuals presenting to the 9.39 hospital in crisis were admitted to a psychiatric unit. A co-response team will increase community safety, increase officer safety, and increase safety for people in crisis. Most importantly, it will decrease the number of individuals exposed to the trauma of being in an emergency department during a crisis. A co-response team will allow for individual follow up and a team to bridge the gap of connecting with services.

Goal 1, Objective 3: Title Establishment of crisis residential opportunities for those with intellectual/developmental disabilities.

Goal 1, Objective 3, Target Completion Date Dec 31, 2024

Goal 1, Objective 3, Description Persons with IDD in behavioral health crises are taken to the emergency department of the 9.39 receiving hospital and very often end up sitting in the ED/admitted to psychiatry for extended periods of time. A crisis residential option is necessary for these individuals so that intolerably long, unnecessary stays in a hospital that is ill equipped to behaviorally assist the individual, are avoided. In general, there is a clear lack of respite/crisis stabilization resources for this population that often leads to inappropriate use of psychiatric hospitalization and/or lengthy hospitalizations.

Goal 1, Objective 4: Title Establish a mobile crisis team.

Goal 1, Objective 4, Target Completion Date Dec 31, 2024

Goal 1, Objective 4, Description Putnam County has no mobile crisis intervention services. As a result, law enforcement are often tasked with de-escalating an individual in crisis. While the county continues to train officers in crisis intervention, a mobile crisis team would supplement these efforts.

Goal 2

Goal 2: Title To increase staff effectiveness in providing quality evidence based programs, including implementation support to ensure fidelity.

Goal 2: Target Completion Date Dec 31, 2025

Goal 2: Description Many providers have limited/lack of Psychiatrist/Nurse Practitioners. While telehealth has been an important addition to services, the need for in person treatment remains a priority for our population. The pandemic impacted workforce as some have left the field contributing to the significant workforce issues especially for direct services, leading to

underserved populations. Putnam County continues to see wait lists for therapy and medication management appointments for both the adult and adolescent population.

Goal 2: OASAS? Yes Goal 2: OMH? Yes Goal 2: OPWDD? No

Goal 2: Need Addressed 1 Workforce

Goal 2: Need Addressed 2 Outpatient treatment

Goal 2: Need Addressed 3

Goal 2, Objective 1: Title Increase the delivery of in person community services.

Goal 2, Objective 1, Target Completion Date Dec 31, 2025

Goal 2, Objective 1, Description Access to outpatient mental health services continues to be a concern to the county LGU as we continue to struggle with significant waiting lists throughout the county. This has been a major obstacle especially when discharging from an inpatient psychiatric admission. The LGU continues to partner with providers to explore process improvements, best practice models and coordination of services.

Goal 2, Objective 2: Title Expand treatment capacity in agencies who are providing services.

Goal 2, Objective 2, Target Completion Date Dec 31, 2025

Goal 2, Objective 2, Description As the increased awareness of mental health symptoms in children and adults continues post pandemic, many are eager/need to engage in treatment. We continue to explore various funding opportunities and provide updated information on loan forgiveness programs, tuition reimbursement and other incentives available via the state/federal government that contributes to staff hiring and retention.

Goal 3

Goal 3: Title Improve the System of Care to be adept at addressing challenges of co-occurring disorders.

Goal 3: Target Completion Date Dec 31, 2024

Goal 3: Description Putnam County's System of Care continues to address issues that impact outcomes for children, adolescents, adults and families. Recently Putnam embarked on an intensive planning effort to improve outcomes for individuals experiencing co-occurring mental health and substance abuse challenges. With the goal of providing person-centered, wraparound planning for individuals/families with complex needs, the LGU will utilize Opioid abatement and local funds to create necessary positions within the LGU.

Goal 3: OASAS? Yes Goal 3: OMH? Yes Goal 3: OPWDD? Yes

Goal 3: Need Addressed 1 Workforce

Goal 3: Need Addressed 2 Cross System Services

Goal 3: Need Addressed 3

Goal 3, Objective 1: Title Increase staffing at the LGU.

Goal 3, Objective 1, Target Completion Date Mar 01, 2024

Goal 3, Objective 1, Description The number of LGU staff able to address the co-occurring system of care effort is inadequate.

Update to 2024-2027 Goals and Objectives Putnam County Mental Health Services

Sara Servadio, Commissioner
sara.servadio@putnamcountyny.gov

Goal 1

Title	Reduce behavioral health crises in the community.

2026 Update to 2024-2027 Goals and Objectives Putnam County Mental Health Services

Sara Servadio, Commissioner
(sara.servadio@putnamcountyny.gov)

Goal 1

Goal 1, 2026 Status Update: Ongoing

Goal 1, 2026 Status Update Description: Continue to develop and implement a trauma-informed, comprehensive, and accessible behavioral health crisis response system to reduce law enforcement involvement and inappropriate hospital emergency department usage. Progress has been made in collaborative efforts with the local hospital and law enforcement agencies this year.

Goal 1 Objective 1, 2026 Status Update: Ongoing

Goal 1 Objective 1, 2026 Status Update Description: The stabilization center launch is going through the local approval process. \$2.5 million dollars was allocated to establish a safe, attuned, person-centered resource for the community.

A revised objective would be to launch and operate a 24/7 crisis stabilization center by the end of June 2026, serving at least 100 residents in its first year, with a satisfaction rating of 80% or higher.

Goal 1 Objective 2, 2026 Status Update: Complete

Goal 1 Objective 2, 2026 Status Update Description: The Co-Response team was established in the early part of 2024. The Co-Response team responds to approximately 70 calls per month.

A revised objective would be to deploy a Co-Response team in collaboration with local law enforcement for all non-violent behavioral health calls by Q1 2025, with a goal to reduce ED transports by 30% in the coming 12 months.

Goal 1 Objective 3, 2026 Status Update: Ongoing

Goal 1 Objective 3, 2026 Status Update Description: Housing and funding opportunities are uncommon so there has not been any progress on this objective. The county office for individuals with disabilities continues to advocate for additional housing opportunities for individuals with intellectual/developmental disabilities and/or behavioral health needs. CP Unlimited is working on implementing an Enhanced Step-Down Program which should provide individuals with increased support to meet their goals. Additionally, the office for individuals with disabilities performs significant outreach and education on supporting/creating opportunities to improve the lives of those with intellectual/developmental disabilities. Additional areas of growth and planning include the following: re-launch the legislative forum in Putnam County, expansion of ADA review, creation of programming via providers in county, encouraging program collaborations, and expanding discussions with families regarding needs.

Goal 1 Objective 4, 2026 Status Update: Complete

Goal 1 Objective 4, 2026 Status Update Description: The mobile crisis team launched in the spring of 2025. The team consists of a manager, social worker and peer. Current hours of operation are Monday to Friday 12pm to 8pm. The team has the capability to respond to adults and youth anywhere in Putnam County.

A revised objective would be to have the mobile crisis team respond to 200 calls in its first year.

Goal 2

Goal 2, 2026 Status Update: Ongoing

Goal 2, 2026 Status Update Description: Workforce shortages continue to plague local mental health providers in Putnam County. Putnam County continues to prioritize access to treatment and efficiency in the system by hosting service network meetings, funding positions, particular emphasis on peer development and implementing an auditing process for use with contracted providers.

A revised goal would be to address workforce shortages and improve access to in-person treatment, particularly psychiatry and therapy services, by increasing staffing and reducing service delays.

Goal 2 Objective 1, 2026 Status Update: Ongoing

Goal 2 Objective 1, 2026 Status Update Description: The County has established audit processes to provide feedback to providers on best practices to increase efficiency.

A revised objective would be to reduce outpatient mental health waitlists by 50% through process improvement, coordination of services and streamlined referral pathways.

Goal 2 Objective 2, 2026 Status Update: Ongoing

Goal 2 Objective 2, 2026 Status Update Description: The county has provided training and collaboration opportunities including mental health first aid, motivational interviewing, and different mental health forums. Peer workforce improvements were supported with financial commitments from the county to support bolstering the workforce.

A revised objective would be to support 3 local agencies in expanding treatment slots by 25% by the end of Q4, with quarterly reviews and at least one annual training per agency.

Goal 3

Goal 3, 2026 Status Update: Ongoing

Goal 3, 2026 Status Update Description: The co-occurring system of care committee (COSOCC), chaired by the Dual Recovery Coordinator, follows the comprehensive, continuous, Integrated System of Care (CCISC) model. Based on the 2024 CompassEZ assessment, the committee developed a 3-year strategic plan implemented via five dedicated workgroups: 1) screening and assessment, 2) training and events, 3) policy review, 4) continuous quality improvement and 5) staff orientation curriculum development.

A revised goal would be to develop a person-centered, cross system model to improve care coordination and outcomes for individuals facing both mental health and substance use challenges.

Goal 3 Objective 1, 2026 Status Update: Complete

Goal 3 Objective 1, 2026 Status Update Description: The dual recovery coordinator was hired in March 2024. Additional objectives could be added around implementing COD curriculum into school districts and the 5 workgroups of COSOCC.

2027 Update to 2024-2027 Goals and Objectives Putnam County Mental Health Services

Paul Tang, Director of Mental Health
(paul.tang@putnamcountyny.gov)

Goal 1

Goal 1, 2027 Status Update: Ongoing

Goal 1, 2027 Status Update Description: Continue to develop and implement a trauma-informed, comprehensive, and accessible behavioral health crisis response system that reduces law enforcement involvement and inappropriate hospital emergency department usage. Progress has been made in collaborative efforts with the local hospital mobile crisis team this year.

Goal 1 Objective 1, 2027 Status Update: N/A

Goal 1 Objective 1, 2027 Status Update Description: The supportive crisis stabilization center was voted down this year. This was the second site that was voted down at the Town level. The county re-allocated the previously earmarked funding to other projects due to ARPA funding guidelines. The county has committed approximately \$2.1 million dollars to "mental health." There are no current plans for a crisis stabilization center in Putnam County.

Goal 1 Objective 2, 2027 Status Update: Complete

Goal 1 Objective 2, 2027 Status Update Description: The objectives were completed for the co-response team this year. CRT responded to over 700 calls in the last 12 months with a significant decrease in need for MHL transports to the ED. This grant funding ends 6/30/26 and the program will not be extended in its current form. Alternate models are being explored.

Goal 1 Objective 3, 2027 Status Update: Ongoing

Goal 1 Objective 3, 2027 Status Update Description: This year, the Legislative Forum was held successfully with representatives from all local offices and many state offices including OMH, OPWDD, state senator and state representatives, and the Governor's office. ADA reviews were expanded, and county offerings like the Autism Acceptance walk were widely attended.

Funding opportunities were inconsistent and uncommon again this year leading to lack of progress with the housing specific aspects of this objective. Additionally, several homes serving the IDD/DD population in Putnam County will be re-located out of county in the next 12 months.

Significant outreach continues from our Office for Individuals with Disabilities to families, individuals and providers to ascertain needs, provide support and training, etc. We will continue to advocate for additional housing opportunities and monitor for any opportunities for expansion of services.

Goal 1 Objective 4, 2027 Status Update: Ongoing

Goal 1 Objective 4, 2027 Status Update Description: The mobile crisis team was established in the spring of 2025. The team faced staffing challenges this year. The revised objective will continue for the team to respond to 200 calls annually.

Goal 2

Goal 2, 2027 Status Update: Ongoing

Goal 2, 2027 Status Update Description: Workforce shortages continue to plague local providers. Funding shortages are the primary driver of staffing level deficits. This remains a priority for the county with opioid abatement funding allocated to funding positions and continued emphasis on peer development. Staffing was an ongoing talking point in conversations with providers during the annual auditing process that was implemented this year.

Goal 2 Objective 1, 2027 Status Update: Ongoing

Goal 2 Objective 1, 2027 Status Update Description: County audits were completed for many of the providers this year with plans to complete all audits by the end of the year. Local providers continue to keep waitlists, but process improvement was observed leading to some decrease in wait time. The county will continue to work with providers to further reduce wait time for individuals.

Goal 2 Objective 2, 2027 Status Update: Ongoing

Goal 2 Objective 2, 2027 Status Update Description: Treatment capacity increased this year but did not reach the 25% threshold. Training opportunities will continue to be offered including mental health first aid, motivational interviewing, and

mental health forums. The county continues to support peer development through financial commitments to bolster the workforce.

Goal 3

Goal 3, 2027 Status Update: **Ongoing**

Goal 3, 2027 Status Update Description: Ongoing work developing a person-centered, cross system model to improve care coordination and outcomes for individuals facing both mental health and substance use challenges occurred this year. Additional events sponsored by COSOCC to facilitate community engagement and decrease stigma were well attended this year. The county also enlisted a partnership with the department of probation to facilitate a peer referral process through a memorandum of understanding. The partnership has a goal to connect interested individuals on probation with peer recovery advocates who can aid the recovery process. Additionally, the ANCHOR program was launched connecting families of individuals lost to overdose with support groups and resources soon after an overdose death.

Goal 3 Objective 1, 2027 Status Update: **Complete**

Goal 3 Objective 1, 2027 Status Update Description: The co-occurring system of care committee (COSOCC), chaired by the Dual Recovery Coordinator (DRC), added a youth focused workgroup this year. We saw additional training opportunities added to Putnam County schools including work with NAMI and co-occurring education. The DRC
