2026 Update to 2024-2027 Goals and Objectives Jefferson County Community Services

Timothy Ruetten, Director of Community Services
(truetten@jeffersoncountyny.gov)

Goal 1

Goal 1, 2026 Status Update: Ongoing

Goal 1, 2026 Status Update Description: Jefferson County has made substantial progress in this category. Through intense collaboration between Jefferson County Administration, Social Services, and Community Services, An Unhoused Population Task Force has focused on developing and implementing solutions to this ever increasing issue. Through a combination of state initiatives, county dollars, and stakeholder engagement there is now a 24/7/365 low barrier shelter option. This, combined with two street outreach teams, ESSHI projects and a CTI program will have a substantial positive impact on the number of unhoused people in Jefferson County. Additionally, an emergency shelter response project has purchased and stocked a large enclosed trailer for emergency shelter needs. Items such as cots, sleeping bags, tents...etc. are able to be deployed immediately, anywhere in Jefferson County to address immediate emergency shelter need.

Goal 1 Objective 1, 2026 Status Update: Complete

Goal 1 Objective 1, 2026 Status Update Description:

Jefferson County has made substantial progress in this category. It was determined that due to cost increases, overburdensome regulations, and difficulty in finding an entity to operate the tiny home community once built, the concept was not feasible low/no barrier options had been limited to an overnight warming center that only ran from November 1 to April 30. This was funded with Code Blue funding. In 2024, the warming center hours were extended to 24/7 by contracting with a local church to operate a daytime warming center. Another church, under contract, provides space and dinner in the early evening hours. So far in 2025, county funding was made available to extend those three contracts to a year round status providing our county with 24/7/365 low/no barrier shelter. We continue to push in to the three programs with peers and advocates from various local agencies.

Goal 1 Objective 2, 2026 Status Update: Ongoing

Goal 1 Objective 2, 2026 Status Update Description: There are currently two ESSHI projects in development that will provide approximately 200 Supportive/Transitional Housing beds covering several special populations. 31 of those beds (MH and SUD) have a tentative go live date of Spring 2026. The remaining beds will most likely come online in late 2026.

Goal 1 Objective 3, 2026 Status Update: Complete

Goal 1 Objective 3, 2026 Status Update Description: An Advisory Task Force consisting of Jefferson County Administration, Social Services, Public Health and Community Services was established and has been working on various initiatives in this area. When appropriate, other stakeholders are engaged to ensure continuous forward movement.

Goal 1 Objective 4, 2026 Status Update Description: Earlier in 2025, The Arc of Jefferson/St. Lawrence was awarded an adult CTI program that includes a respite component for clients that have both IDD and MH diagnoses. Goal 2 Objective 3, 2026 Status Update Description: Jefferson County Community Services continues to be dedicated to ensuring that our Law Enforcement and First Responder personnel have the necessary training and support to adequately respond to behavioral health related emergencies. Our office has provided numerous in-service trainings to Law Enforcement agencies, EMS personnel, and our local behavioral health providers on Mental Hygiene Law, specifically on MHL 9.41, 9.45, and 9.60. Additionally, a Crisis Intervention Team class was completed in 2024. As we move forward with both Crisis and Unhoused person's services, we will make adjustments to the plan. Jefferson County Community Services recognizes the need to improve Officer and 1st responder wellness and reduce the stigma sometimes associated with asking for help. As such, we have partnered with the New York Law Enforcement Assistance Program to ensure that those first responders in need of emotional assistance have the opportunity to participate in an annual Post Critical Incident Seminar (PCIS).
